Software Engineer | Full-Stack Web Developer

RESUMEN

Passionate Software Engineer with 5 years of Full-Stack Web Development experience. Excited about working with new technologies and keep improving known skills. Team-player that values feedback and fellowship.

SKILLS

Languages
- Typescript / JavaScript
- HTML / CSS
- C# • Python
- JSON / XML

Front-end
- Angular / Vue.js / React
- PrimeNG / Material UI
- Node.js / npm

Back-end
- .Net Core / EF
- REST API / Postman
- SQL Server
- Swagger

Other Tools
- Azure DevOps / CICD
- Git • GitLab
- Enterprise Architect / Wireframe
- Docker • Scrum

EXPERIENCE

FULL STACK DEVELOPER
NexPay Pty Ltd - nexpay.com.au | Dec 2023 - Present | Australia

- Planning and implementing a modern version of an existing web app, keeping the business logic but improving the ability to **test**, **maintain**, **enhance** and **deploy** it. CI/CD pipeline management using **Azure DevOps**.
- Developing a templated email sender service consuming **Azure Service Bus**.
- Developing a responsive **Angular19** frontend app using **Tailwind** and **PrimeNG**. Used latest Angular improvements like **Signals** to manage stores and improve performance and reduce codebase complexity.

FULL STACK DEVELOPER
JBKnowledge - jbknowledge.com | Nov 2022 – Dec 2023 | Argentina

- Multi-purpose project configuration and integration between libraries and setups. **Angular15**, **Storybook**, **Tailwind**, **React Microfrontends** within Angular, **MSW** mock requests, **MSAL** auth interceptors, **PowerFX** editor, among others. Building modular, generic, optimized and scalable **Angular15** libraries and components.
- Developing, fixing and improving APIs for multiple projects, using **.NET Core / C#**. Code-First database approaches using **Entity Framework**. Event-based database management using **Azure Cosmos DB**.
- Working using agile workflows (**User Stories / Scrum**). Hands-on involvement in all parts of a project, implementing Frontend, Backend and DB from the ground up, documenting development good practices.

FULL STACK DEVELOPER
Diveria S.R.L. - diveria.com | Nov 2020 – Nov 2022 | Argentina

- Building modular frontend libraries and components to optimize development speed and improve page loading times (**Angular13**). Developing, fixing and improving APIs for multiple projects (**.NET Core**).
- Migrating and refactoring legacy **Sharepoint / Knockout.js** code to **Angular13**, improving code implementation and readability.
- Developing automated web-scraping, data processing, csv/xlsx report exporting scripts using **Python**.
- Working using agile workflows (**User Stories / Scrum**), with both in-house developer teams and clients.

RESEARCH AND DEVELOPMENT INTERN
sinc(i) - sinc.unl.edu.ar | Sep 2019 - Oct 2021 | Argentina

- Developing a **Python** tool for estimating voice from EEG records in the context of imagined speech.

EDUCATION

COMPUTER SCIENCE, INFORMATICS ENGINEERING • GPA 3.7 (8.8 avg.)
Universidad Nacional del Litoral – Facultad de Ingeniería y Ciencias Hídricas | 2022

ELECTROMECHANICAL EQUIPMENT AND INSTALLATIONS TECHNICIAN • EETP N° 456 | 2015

LANGUAGES

SPANISH (Native) | ENGLISH (Advanced – FCE B2 – TOEFL iBT 105 – IELTS 8.0)
